

# SAFETY DATA SHEET Merkrete 705 Dustless Proset Plus W

According to Regulation (EC) No 1907/2006, Annex II, as amended by Regulation (EU) No 453/2010

SECTION 1: Identification of the substance/mixture and of the company/undertaking

| SECTION 1: Identification of the substance/mixture and of the company/undenaking |  |  |
|--|--|--|
| 1.1. Product identifier  |  |  |
| Product name   | Merkrete 705 Dustless Proset Plus W  |  |
| Product number   | 4302   |  |
| 1.2. Relevant identified uses of   | of the substance or mixture and uses advised against   |  |
| Identified uses  | Ceramic Tile Adhesive  |  |
| Uses advised against   | No specific uses advised against are identified.   |  |
| 1.3. Details of the supplier of t  | he safety data sheet   |  |
| Manufacturer   | ParexUSA, Inc.<br>4125 E. La Palma Ave, Suite 250<br>Anaheim, CA 92807, USA<br>T: 1-800-226-2424<br>F: 1-714-774-2079  |  |
| 1.4. Emergency telephone nul   | mber   |  |
| Emergency telephone  | CHEMTREC<br>1-800-424-9300   |  |
| SECTION 2: Hazards identific   | ation  |  |
| 2.1. Classification of the subst   | ance or mixture  |  |
| Classification (EC 1272/2008)  |  |  |
| Physical hazards   | Not Classified   |  |
| Health hazards   | Skin Irrit. 2 - H315 Eye Dam. 1 - H318 Skin Sens. 1 - H317 Carc. 1A - H350 STOT SE 3 -<br>H335 STOT RE 1 - H372  |  |
| Environmental hazards  | Not Classified   |  |
| 2.2. Label elements  |  |  |
| Pictogram  |  |  |
|  |  |  |
| Signal word  | Danger   |  |
| Hazard statements  | <ul> <li>H315 Causes skin irritation.</li> <li>H317 May cause an allergic skin reaction.</li> <li>H318 Causes serious eye damage.</li> <li>H335 May cause respiratory irritation.</li> <li>H350 May cause cancer.</li> <li>H372 Causes damage to organs through prolonged or repeated exposure.</li> </ul> |  |

| Precautionary statements | P201 Obtain special instructions before use.   |
|--------------------------|--|
|                          | P202 Do not handle until all safety precautions have been read and understood.       |
|                          | P260 Do not breathe dust.  |
|                          | P261 Avoid breathing dust.   |
|                          | P264 Wash contaminated skin thoroughly after handling.                               |
|                          | P270 Do not eat, drink or smoke when using this product.                             |
|                          | P271 Use only outdoors or in a well-ventilated area.                                 |
|                          | P272 Contaminated work clothing should not be allowed out of the workplace.          |
|                          | P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.   |
|                          | P302+P352 IF ON SKIN: Wash with plenty of water.                                     |
|                          | P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
|                          | P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove   |
|                          | contact lenses, if present and easy to do. Continue rinsing.                         |
|                          | P308+P313 IF exposed or concerned: Get medical advice/ attention.                    |
|                          | P310 Immediately call a POISON CENTER/ doctor.                                       |
|                          | P312 Call a POISON CENTER/ doctor if you feel unwell.                                |
|                          | P314 Get medical advice/ attention if you feel unwell.                               |
|                          | P321 Specific treatment (see medical advice on this label).                          |
|                          | P332+P313 If skin irritation occurs: Get medical advice/ attention.                  |
|                          | P333+P313 If skin irritation or rash occurs: Get medical advice/ attention.          |
|                          | P362+P364 Take off contaminated clothing and wash it before reuse.                   |
|                          | P403+P233 Store in a well-ventilated place. Keep container tightly closed.           |
|                          | P405 Store locked up.  |
|                          | P501 Dispose of contents/ container in accordance with national regulations.         |
|                          |  |

Contains

Portland Cement, Quartz

## 2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

# SECTION 3: Composition/information on ingredients

| 3.2. Mixtures          |        |
|------------------------|--------|
| Portland Cement        | 10-30% |
| CAS number: 65997-15-1 |        |
| Classification         |        |
| Skin Irrit. 2 - H315   |        |
| Eye Dam. 1 - H318      |        |
| Skin Sens. 1 - H317    |        |
| Carc. 1B - H350        |        |
| STOT SE 3 - H335       |        |
| STOT RE 2 - H373       |        |
| Quartz                 | 10-30% |
|                        | 10-30% |
| CAS number: 14808-60-7 |        |
| Classification         |        |
| Carc. 1A - H350        |        |
| STOT RE 1 - H372       |        |

| <b>Classification</b><br>Skin Irrit. 2 - H315                        |  |
| Kaolin Clay  | <1%  |
| CAS number: 1332-58-7  |  |
| <b>Classification</b><br>Skin Irrit. 2 - H315<br>Eye Irrit. 2 - H319 |  |
| The Full Text for all R-Phrase                                       | es and Hazard Statements are Displayed in Section 16.  |
| SECTION 4: First aid measur  | res  |
| 4.1. Description of first aid me                                     | easures  |
| General information  | Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel.   |
| Inhalation   | Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention. Place unconscious person on their side in the recovery position and ensure breathing can take place. |
| Ingestion  | Rinse mouth thoroughly with water. Give a few small glasses of water or milk to drink. Stop if<br>the affected person feels sick as vomiting may be dangerous. Never give anything by mouth<br>to an unconscious person. Place unconscious person on their side in the recovery position<br>and ensure breathing can take place. Keep affected person under observation. Get medical<br>attention.                       |
| Skin contact   | It is important to remove the substance from the skin immediately. In the event of any sensitisation symptoms developing, ensure further exposure is avoided. Remove contamination with soap and water or recognised skin cleansing agent. Get medical attention if symptoms are severe or persist after washing.  |
| Eye contact  | Rinse immediately with plenty of water. Do not rub eye. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes and get medical attention.  |
| Protection of first aiders   | First aid personnel should wear appropriate protective equipment during any rescue.  |
| 4.2. Most important symptom  | s and effects, both acute and delayed  |
| General information  | The severity of the symptoms described will vary dependent on the concentration and the length of exposure.  |
| Inhalation   | A single exposure may cause the following adverse effects: Irritation of nose, throat and airway. Difficulty in breathing. Coughing. Prolonged or repeated exposure may cause the following adverse effects: May cause cancer.   |
| Ingestion  | May cause sensitisation or allergic reactions in sensitive individuals. May be harmful if swallowed. May cause irritation. Prolonged or repeated exposure may cause the following adverse effects: May cause cancer.   |

| Skin contact                                  | May cause skin sensitisation or allergic reactions in sensitive individuals. Redness. Irritating to skin. Prolonged or repeated exposure may cause the following adverse effects: May cause cancer.  |  |
|---|--|--|
| Eye contact                                   | Causes serious eye damage. Symptoms following overexposure may include the following:<br>Pain. Profuse watering of the eyes. Redness.  |  |
| 4.3. Indication of any immedia                | te medical attention and special treatment needed  |  |
| Notes for the doctor                          | Treat symptomatically. May cause sensitisation or allergic reactions in sensitive individuals.   |  |
| SECTION 5: Firefighting meas                  | sures  |  |
| 5.1. Extinguishing media                      |  |  |
| Suitable extinguishing media                  | The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.   |  |
| Unsuitable extinguishing media                | Do not use water jet as an extinguisher, as this will spread the fire.   |  |
| 5.2. Special hazards arising fr               | om the substance or mixture  |  |
| Specific hazards                              | None known.  |  |
| Hazardous combustion<br>products              | Thermal decomposition or combustion products may include the following substances:<br>Harmful gases or vapours.  |  |
| 5.3. Advice for firefighters                  |  |  |
| Protective actions during firefighting        | Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities. |  |
| Special protective equipment for firefighters | Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.   |  |
| SECTION 6: Accidental release measures        |  |  |
| 6.1. Personal precautions, pro                | tective equipment and emergency procedures   |  |
| Personal precautions                          | Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Avoid inhalation of dust and vapours. Use suitable respiratory protection if ventilation is inadequate. Avoid contact with skin and eyes.  |  |

## 6.2. Environmental precautions

**Environmental precautions** Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.

#### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.

#### 6.4. Reference to other sections

| Reference to other sections | For personal protection, see Section 8. See Section 11 for additional information on health   |
|-----------------------------|---|
|                             | hazards. See Section 12 for additional information on ecological hazards. For waste disposal, |
|                             | see Section 13.   |

SECTION 7: Handling and storage

| 7.1. Precautions for safe handling                                |   |  |
|---|---|--|
| Usage precautions   | Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Keep container tightly sealed when not in use. May cause cancer. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers. |  |
| Advice on general<br>occupational hygiene                         | Wash promptly if skin becomes contaminated. Take off contaminated clothing. Wash contaminated clothing before reuse.  |  |
| 7.2. Conditions for safe storage, including any incompatibilities |   |  |
| Storage precautions   | Store locked up. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage.   |  |
| Storage class   | Chemical storage.   |  |
| 7.3. Specific end use(s)  |   |  |
| Specific end use(s)   | The identified uses for this product are detailed in Section 1.2.   |  |
| SECTION 8: Exposure Contro  | ls/personal protection  |  |

- 8.1. Control parameters
- Occupational exposure limits

#### **Portland Cement**

Long-term exposure limit (8-hour TWA): WEL 10 mg/m<sup>3</sup> inhalable dust Long-term exposure limit (8-hour TWA): WEL 4 mg/m<sup>3</sup> respirable dust

#### **Calcium Carbonate**

Long-term exposure limit (8-hour TWA): WEL 10 mg/m³inhalable dustLong-term exposure limit (8-hour TWA): WEL 4 mg/m³respirable dustLong-term exposure limit (8-hour TWA): WEL 10 mg/m³inhalable dustLong-term exposure limit (8-hour TWA): WEL 10 mg/m³inhalable dustLong-term exposure limit (8-hour TWA): WEL 4 mg/m³inhalable dustLong-term exposure limit (8-hour TWA): WEL 4 mg/m³respirable dustLong-term exposure limit (8-hour TWA): WEL 4 mg/m³respirable dust

#### Kaolin Clay

Long-term exposure limit (8-hour TWA): WEL 2 mg/m<sup>3</sup> respirable dust WEL = Workplace Exposure Limit

#### 8.2. Exposure controls

#### **Protective equipment**

Appropriate engineering controls

Eye/face protection

Provide adequate ventilation.

Avoid contact with eyes. Wear eye protection.

| Hand protection                   | Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with European Standard EN374. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended. |
|-----------------------------------|--|
| Other skin and body<br>protection | Wear appropriate clothing to prevent any possibility of skin contact.  |
| Hygiene measures                  | Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.<br>Wash contaminated clothing before reuse.  |
| Respiratory protection            | Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Ensure all respiratory protective equipment is suitable for its intended use and is 'CE'-marked. Gas and combination filter cartridges should comply with European Standard EN14387. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.  |
| Environmental exposure controls   | Keep container tightly sealed when not in use. Avoid release to the environment.   |

## **SECTION 9: Physical and Chemical Properties**

## 9.1. Information on basic physical and chemical properties

| Appearance                                      | Powder.                   |
|---|---------------------------|
| Colour  | White.                    |
| Odour   | Odourless.                |
| Odour threshold                                 | No information available. |
| рН  | 12-13 in water            |
| Melting point                                   | Not available.            |
| Initial boiling point and range                 | No information available. |
| Flash point                                     | No information available. |
| Evaporation rate                                | No information available. |
| Flammability (solid, gas)                       | No information available. |
| Upper/lower flammability or<br>explosive limits | No information available. |
| Vapour pressure                                 | No information available. |
| Vapour density                                  | No information available. |
| Relative density                                | 21.96 lb/gal @ 20°C       |
| Solubility(ies)                                 | No information available. |
| Partition coefficient                           | No information available. |
| Auto-ignition temperature                       | No information available. |
| Decomposition Temperature                       | No information available. |
| Viscosity                                       | No information available. |
| 9.2. Other information                          |                           |

| Other information   | None.  |
|---|--|
| Volatile organic compound   | This product contains a maximum VOC content of 0.0 g/l.  |
| SECTION 10: Stability and rea   | nctivity   |
| 10.1. Reactivity  |  |
| Reactivity  | There are no known reactivity hazards associated with this product.  |
| 10.2. Chemical stability  |  |
| Stability   | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.  |
| 10.3. Possibility of hazardous  | reactions  |
| Possibility of hazardous reactions  | No potentially hazardous reactions known.  |
| 10.4. Conditions to avoid   |  |
| Conditions to avoid   | There are no known conditions that are likely to result in a hazardous situation.  |
| 10.5. Incompatible materials  |  |
| Materials to avoid  | No specific material or group of materials is likely to react with the product to produce a hazardous situation.   |
| 10.6. Hazardous decompositio  | on products  |
| Hazardous decomposition<br>products   | Does not decompose when used and stored as recommended. Thermal decomposition or<br>combustion products may include the following substances: Harmful gases or vapours.  |
|   |  |

Based on available data the classification criteria are not met.         Based on available data the classification criteria are not met.         Irritating.         Eye Dam. 1 - H318 Causes serious eye damage.         Based on available data the classification criteria are not met. |

| IARC carcinogenicity                                       | Contains a substance/a group of substances which may cause cancer. IARC Group 1<br>Carcinogenic to humans.   |
|--|--|
| Reproductive toxicity<br>Reproductive toxicity - fertility | Suspected of damaging fertility.   |
| Reproductive toxicity -<br>development                     | Based on available data the classification criteria are not met.   |
| Specific target organ toxicity -                           | single exposure  |
| STOT - single exposure                                     | STOT SE 3 - H335 May cause respiratory irritation.   |
| Target organs  | Respiratory system, lungs  |
| Specific target organ toxicity -                           | repeated exposure  |
| STOT - repeated exposure                                   | STOT RE 1 - H372 Causes damage to organs through prolonged or repeated exposure.   |
| Aspiration hazard<br>Aspiration hazard                     | Not relevant. Solid.   |
| General information  | May cause cancer after repeated exposure. Risk of cancer depends on duration and level of exposure. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.  |
| Inhalation   | A single exposure may cause the following adverse effects: Irritation of nose, throat and airway. Difficulty in breathing. Coughing.   |
| Ingestion  | May be harmful if swallowed. May cause sensitisation or allergic reactions in sensitive individuals. May cause irritation.   |
| Skin contact   | Exposure of skin to wet product may cause chemical burns. Symptoms of exposure may take several hours to manifest. May cause skin sensitisation or allergic reactions in sensitive individuals. Redness. Irritating to skin.   |
| Eye contact  | Causes serious eye damage. Symptoms following overexposure may include the following:<br>Pain. Profuse watering of the eyes. Redness. Exposure of eyes to wet product may cause<br>chemical burns and blindness. Exposure to airborne dust can cause immediate or delayed<br>irritation or inflammation. |
| Route of entry   | Ingestion Inhalation Skin and/or eye contact   |
| Target organs  | Respiratory system, lungs  |
| Medical considerations                                     | Skin disorders and allergies.  |
| SECTION 12: Ecological Infor                               | mation   |
| Ecotoxicity  | Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.  |
| 12.1. Toxicity   |  |
| Toxicity   | Based on available data the classification criteria are not met.   |
| 12.2. Persistence and degrada                              | ability  |
| Persistence and degradability                              | The degradability of the product is not known.   |
| 12.3. Bioaccumulative potentia                             | al   |
| Bioaccumulative potential                                  | No data available on bioaccumulation.  |
|  |  |

#### 12.4. Mobility in soil

Mobility No data available.

### 12.5. Results of PBT and vPvB assessment

#### 12.6. Other adverse effects

Other adverse effects

None known.

### SECTION 13: Disposal considerations

## 13.1. Waste treatment methods

| The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous. |
|--|
| Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.  |
|  |

## SECTION 14: Transport information

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

#### 14.1. UN number

General

Not applicable.

#### 14.2. UN proper shipping name

Not applicable.

#### 14.3. Transport hazard class(es)

No transport warning sign required.

#### 14.4. Packing group

Not applicable.

#### 14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

#### 14.6. Special precautions for user

Not applicable.

#### 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

## SECTION 15: Regulatory information

## 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

| National regulations | <ul> <li>Health and Safety at Work etc. Act 1974 (as amended).</li> <li>The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No. 716).</li> <li>The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].</li> <li>EH40/2005 Workplace exposure limits.</li> </ul>   |
|----------------------|--|
| EU legislation       | <ul> <li>Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18</li> <li>December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).</li> <li>Commission Regulation (EU) No 453/2010 of 20 May 2010.</li> <li>Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16</li> <li>December 2008 on classification, labelling and packaging of substances and mixtures (as amended).</li> <li>Dangerous Preparations Directive 1999/45/EC.</li> <li>Dangerous Substances Directive 67/548/EEC.</li> </ul> |

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

#### Inventories

#### **EU - EINECS/ELINCS**

None of the ingredients are listed or exempt.

### SECTION 16: Other information

| Classification procedures<br>according to Regulation (EC)<br>1272/2008 | Eye Dam. 1 - H318: STOT RE 1 - H372: STOT SE 3 - H335: Skin Irrit. 2 - H315: Skin Sens. 1<br>- H317: Carc. 1A - H350: : Calculation method.   |
